SPECIFICATIONS

Type of environment: Mainframe computer Server LAN Room

Room size: _____ approximate sq. ft. (*accurate square footage is essential ±5%*)

Floor plan provided? Yes No

General room location (basement, ground level, etc.) _____

Is there an elevator? Yes No

Room is surrounded by: Walls Windows Other

Does the room have raised flooring? Yes No

If yes, complete all sections. If no, disregard underfloor section.

Age of room in years: _____

Windows in computer room? Yes No

Fire suppression system: FM200 or similar Sprinklers Other

Is there a manual abort switch for the fire suppression system? Yes No

COMPUTER EQUIPMENT

Number of enclosed server/telecom cabinets: _____

Open server telecom racks: _____

Is there overhead cable tray/racking between cabinets/racks? Yes No

Is there under-floor cable trays? Yes No

Is there a command console that houses monitors/keyboards? Yes No

Number of printers: Laser _____ Line _____ Other _____

Are the printers in the computer room? Yes No

Are the printers in an isolated room? Yes No

Is the underfloor plenum of the printer area isolated? Yes No

Is there a telephone punch-down block in the room? Yes No

How dense is the computer equipment in the room?

new construction - only PDUs & CRACS

most of the room is wide open

half the room is wide open/half is dense

How dirty is the computer equipment?

brand new out of the box

visible contaminants on equipment and keyboards

most equipment is very dirty

TOP OF FLOORS

Is the floor surface comprised of rased 2' x 2' removeable panels? Yes No

If yes, what is the surface material? HPL laminate carpet vinyl

If carpeting: individual tiles overlay on laminte tiles

Color of floor panels or carpeting: _____

Do the floor panels run throughout the entire computer room Yes No

If no, what area do the floor panels comprise? _____ sq. ft.

Are the floor panels screwed down to the floor structure? Yes No

Are the floor panels missing many trim edge pieces? Yes No

If no, is it a vinyl compistion tile (VCT) surface? Yes No Color _____

Is it a static dissipating tile (SDT or ESD) surface? Yes No Color _____

Is it a carpeted floor surface? Yes No Color _____

How dirty is the floor surface?

- very clean, looks brand new
- visible contaminant build-up, scuff marks, etc.
- very dirty with scuff marks, spots, dust bunnies, etc.

UNDER-FLOOR (PLENUM)

Depth of underfloor: 6 inch 12 inch 18 inch 24 inch other

Is there pressurized airflow? Yes No

Alarm types: smoke water humidity temp none

Are there fiber optics: Yes No

Are they organized in protective trays? Yes No

Is other cabling neatly bundled wth cable organizing devices? Yes No

Is the concrete slab sealed with any type of concrete sealant? Yes No

How dirty is the underfloor?

- no visible debris, no dust on hand when slab is wiped
- visible dust debris, dust on hand when slab is wiped
- very dirty, dust blow up when floor tiles are lifted, large amount of visible debris

How dense is the cabling?

- cabling is very light throughout underfloor
- cabling is moderately lighth, dense around equipment
- cabling is very dense all throughout the underfloor
